/experience

|Davis Square Architects|

Architectural Designer

Worked as a leading designer on a variety of projects including housing, childcare facilities and commercial buildings. Developed new affordable housing buildings and childcare centers from conceptual design to construction documents level of detail. Created office fit out schemes of various scales. Worked on exterior and interior upgrades to the buildings. Participated in drawing coordination with engineers and meeting with clients. Performed site visits, field surveys, and punchlists. Handled general construction administration tasks.

Somerville, MA

July 2016 - Present

|Freelance Graphic Designer|

Brand Identity Designer

Produced logo designs, print collateral, and branding packages for startups and small businesses. Clients included tech startup companies, Boston based moving company, and personal brands.

Cambridge, MA

July 2016 - Present

|Integrated Design Group|

Architectural Intern

Collaborated with architects and engineers producing drawings for data center design and retail spaces. Used Revit software to create multiple options for office fit outs. Created presentations for client meetings. Performed on-site visits and inspections. Met product vendors and representatives.

Boston, MA

July - December 2015

/competitions

|Sasaki BeyondAEC Hackathon|

Winner of 'Best Use of Data' award

Collaborated with a team of programmer, cost estimator consultant, and architectural technologist in a 24 hour intensive hackathon to develop a cost estimating solution that allows designers to integrate cost awareness into early design process and avoid value engineering. Devised a dashboard 'Palette' that enables designers to upload BIM models and assign options of materials to analyze cost impacts for a project.
